

Delivering The Best Of Chemistry

www.veloxyventures.com

Veloxly Ventures

Has operated in **international distribution and trading** and is split into several industrial segments, each of which is managed by a specialized team providing professional advice and services.

“ An emerging company in chemical distribution and exports. ”

Mission

- To deliver high-quality industrial and specialty chemicals globally, ensuring reliability, safety, and timely supply while building long-term partnerships through ethical business practices and customer satisfaction.

Vision

- To become a trusted global chemical export company, recognized for consistent quality, competitive pricing, and excellence in international trade across diverse industries.

KEY SUCCESS FACTORS

SPECIALIST SKILLS

Segment, product, market, logistics, sourcing and compliance specialist

QUALITY CULTURE

Monitoring of business processes and Management performance, incentives to employees through quality awards, attention to customers and employees satisfaction

CUSTOMER SERVICE

transparency, flexibility, speed, products full range, information on market trends, customer satisfaction, traceability, “One Stop Shopping” from raw materials to special waste. Customers direct access to technical information.

STATE OF THE ART INFRASTRUCTURE AND SYSTEMS

Modern infrastructure and systems supporting global chemical sourcing, quality control and logistics.

QUALITY, SAFETY & ENVIRONMENT

We guarantee to “stakeholders” full respect for the environment, safety and quality through certifications

Regulatory compliance, continuous staff updating to new industry sector regulations

Industrial Chemicals

Name	CAS
Caustic Soda Flakes (Sodium Hydroxide)	1310-73-2
Caustic Soda Lye (48–49%)	1310-73-2
Hydrochloric Acid	7647-01-0
Sulphuric Acid 98%	7664-93-9
Liquid Ammonia	7664-41-7
Acetic Acid 99.9%	64-19-7
Ferrous Sulphate	7782-63-0
Defoamer	9006-65-9
Sulphamic Acid	5329-14-6
Salt (Sodium Chloride)	7647-14-5
Sodium Sulphate	7757-82-6
Sodium Metabisulphite	7681-57-4

Industrial Chemicals

Name	CAS
Sodium Bisulphite	7631-90-5
Poly Aluminium Chloride (Powder 28–30%)	1327-41-9
Poly Aluminium Chloride (Liquid 16–18%)	1327-41-9
Sodium Sulphite	7757-83-7
Aluminium Sulphate	10043-01-3
Ferric Chloride	7705-08-0
Oxalic Acid	144-62-7
Formaldehyde / Formalin	50-00-0
Ammonium Persulfate	7727-54-0
Sodium Persulfate	7775-27-1
Potassium Persulfate	7727-21-1

Water Treatment

Name	CAS
Caustic Soda Flakes (Sodium Hydroxide)	1310-73-2
Caustic Soda Lye (48–49%)	1310-73-2
Poly Aluminium Chloride (28–30%) – Powder	1327-41-9
Salt (Sodium Chloride – Industrial/Food)	7647-14-5
Sodium Metabisulphite	7681-57-4
Sodium Bisulphite	7631-90-5
Sodium Sulphite	7757-83-7
Hydrated Lime (Calcium Hydroxide)	1305-62-0
EDTA (Ethylenediaminetetraacetic Acid)	60-00-4
Poly Aluminium Chloride (9–10%) – Liquid	1327-41-9
Calcium Hypochlorite	7778-54-3
Aluminium Sulphate	10043-01-3
Soda Ash (Light & Dense – Sodium Carbonate)	497-19-8

Detergent And Soap Chemical

Name	CAS
Sodium Sulphite	7757-83-7
Sodium Lauryl Ether Sulphate (SLES)	68585-34-2
Linear Alkyl Benzene Sulphonic Acid (LABSA)	27176-87-0
NP9 (Nonylphenol Ethoxylate – 9 EO)	9016-45-9
Hydrogen Peroxide 50% / 35%	7722-84-1
Caustic Soda Lye (48–49%)	1310-73-2
Caustic Soda (Flakes/Pearls)	1310-73-2
Sodium Silicate	1344-09-8
Potassium Silicate	1312-76-1

Feed & Fertilizers

Name	CAS
Magnesium Chloride Flakes	7786-30-3
Copper Sulphate	7758-99-8
Magnesium Sulphate	7487-88-9

Plastic & Rubber

Name	CAS
Chlorinated Paraffin Wax	63449-39-8
Precipitated Silica	112926-00-8
Zinc Oxide	1314-13-2
Iron Oxide	1309-37-1

Mining Chemicals

Name	CAS
Activated Carbon	7440-44-0
Hydrated Lime (Calcium Hydroxide)	1305-62-0
Hydrochloric Acid	7647-01-0
Nitric Acid 68%	7697-37-2
Acetylene Carbon Black	1333-86-4
Sodium Silicates	1344-09-8
Sulfuric Acid 98%	7664-93-9
Caustic Soda Pearls / Flakes (Sodium Hydroxide)	1310-73-2
Hydrogen Peroxide 50%	7722-84-1
Copper Sulphate Pentahydrate	7758-99-8
Guar Gum	9000-30-0

Minerals

Name	CAS
Talc	14807-96-6
Bentonite	1302-78-9
Potassium Feldspar	68476-25-5
Sodium Feldspar	1344-09-8
Quartz	14808-60-7
Dolomite	16389-88-1
Vermiculite	1318-00-9
Fly Ash	68131-74-8
Copper Slag	69012-64-2

Name	CAS
Menthol Crystal	89-78-1
Talc	14807-96-6
Sulfathiazole	72-14-0
Ciprofloxacin Hydrochloride (BP)	86393-32-0
Fenbendazole	43210-67-9
Albendazole	54965-21-8
Sulfasalazine	599-79-1
Phenazopyridine HCl	136-40-3
Magnesium Hydroxide	1309-42-8
